Bluewater Uranium.xls

Hi Matthew,

Here is the index for Bluewater and the link to SDMS.

Your username and password are the same that you use to log into the network, but you'll probably want to put in a Work Request for training. If you don't know where in Lotus notes the requests are, you can always call or email Elaine Chan and she'll do it for you.

 You can send me the Doc IDs of anything you're interested in seeing and I'll either email them to you or get the hardcopy if they are not scanned.

Call if you have any questions!

Best,
Kathy
